

## Semi finished Seat Tracks in customized Lengths

### The purpose of this letter is to inform you about a great benefit

Interturbine Aviation Logistics GmbH provides the full range of services to meet your demand for seat track repairs:

- Extrusion seat tracks cut to requested length
- Machining of seat mounting holes (notches) and surface treatment (anodizing & painting) according to the Airbus structural repair manual (SRM) or customer provided specification
- Delivery of seat track segment including seat track covers upon request.

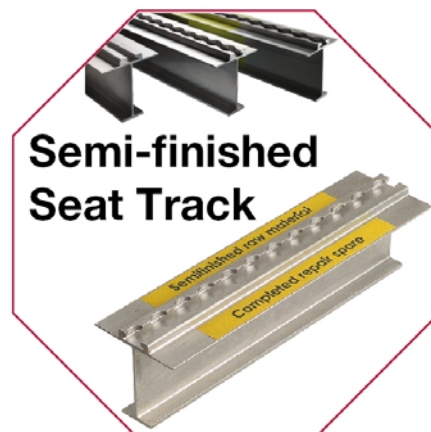

Please see page 2 for detailed information about the product range.

### Benefits:

- Savings in cost through cut-out process in accordance with the Airbus SRM
- No scrap, customized lengths of semi finished seat tracks to individual repair requirements
- No minimum order quantity, supply of lengths as needed
- Savings in cost and time for own workshop internal machining and surface treatment processes of extrusion
- Savings in storage space
- Savings in purchasing of raw material
- Reduced lead times / reduced aircraft down time
- Full AOG support 24h/7d semi finished repair spares
- Full support for aircraft with Heavy Maintenance through Interturbine's network of regional warehouses
