

## Press Release

The Interturbine Group of Company has now extended its global organization and services by establishing its own subsidiary in Prague / Czech Republic. This now provides the capability to serve the Eastern European region even better than before.

The Interturbine Group is very well established and recognized around the world as an approved supplier of consumable materials (chemicals), composites, raw materials, standard hardware and semi-finished materials to the aerospace industry, airlines and high-tech industry. Interturbine also provides global AOG Support for all maintenance materials consolidating more than 2500 supply sources. Due to the high service attitude of our staff, fast response, global presence and worldwide material handling capability, Airbus, ATR, Dornier, Embraer & Eurocopter have appointed us as their approved fleet distributor. In addition, our innovative material service support concept provides a One Stop Source.

Our international supply network – headquartered in Germany – includes distribution centres in Dallas (USA), Beijing (China), St. Ives (UK), Toulouse (France), Wollongong (Australia) and Singapore as well as also customer service centres in Seattle/WA, Miami/FL, Sun Valley/CA, Montréal/Canada and Johannesburg/South Africa, so that immediate delivery of many items from a total of 80,000 can be ensured. As a result of this, downtime for maintenance can be reduced and traffic efficiency is being increased.

### Our service makes the difference:

- AOG support - 24/7 - 365 days a year
- Initial provisioning
- Inventory management
- Just in time material supply
- Total supply chain management
- One Stop Source service for all maintenance materials
- Inhouse forwarder to reduce shipping time and cost
- Shipping consolidation of various products
- Dangerous goods packing
- Dry-ice composites shipping
- Service bulletin and repair kit assembly
- Component repair and overhaul management
- Supply of common and specific aircraft tooling and GSE
