

## Press Release

### **Interturbine Group of Companies expands local business in Russia**

Kaltenkirchen/Moscow, February 2009

Interturbine Group of Companies – the ONE STOP SOURCE for all maintenance materials – continues to expand into new markets by founding a new company based in Moscow, Russia: Interturbine-RuSky. This new local material support office in Moscow will bring Interturbine closer to its growing number of customers in this region.

Interturbine is an approved supplier of 'CES' materials such as consumables, chemicals, composites, raw and semi-finished metal products and materials as well as standard hardware to the aerospace and high-tech industries.

“An Interturbine office in Moscow will help us to further improve our services, communication and processing time”, said Burckhard Schneider, President and CEO of Interturbine Group of Companies. “Now our customers in Russia will be served during their business hours in their local language. At a later step we shall also be looking into local warehousing in order to improve our total service capability even more.”

Interturbine-RuSky started its operations on 01 February 2009. All pending orders will be processed and completed by Interturbine's Headquarters in Kaltenkirchen, Germany, all new quotation requests, orders and any other inquiries will be handled by the new local Moscow office.

With 20 sales offices and distribution centers on all continents of the world Interturbine is prepared to provide services tailored to the specific regional needs of the customers all over the world.

#### **About Interturbine**

Interturbine is recognized around the world as an approved supplier of 'CES' materials such as consumables, chemicals, composites, raw and semi-finished metal products and materials as well as standard hardware to the aerospace industry, MRO's and airlines, consolidating more than 500,000 part numbers from more than 2,500 sources. The innovative material service concept provides a ONE STOP SOURCE for immediate supply on call, supplying aerospace manufacturers, maintenance centers, airlines and high-tech industries alike. Airbus, ATR, Dornier, Embraer, Eurocopter and Pilatus have appointed Interturbine as their approved fleet support distributor because of the high service attitude of its staff, fast response, global presence and worldwide material handling capability.

The international supply network – headquartered in Germany – includes distribution / customer service centers in France, UK, Czech Republic, Russia, USA, Canada, Mexico, Brazil, UAE, P.R. China, Japan, Singapore, India, Australia and South Africa ensuring a quick service for fastest material availability.

**GERMANY - FRANCE - UK - CZECH REPUBLIC - RUSSIA - USA - CANADA - MEXICO
